Kayaking & Ducky

Ready to get wet? Come discover the rivers of Pucón in a Kayak or Ducky. **Aguaventura Expediciones** offers kayak classes for beginners to expert riders. You can also play with a Ducky, a "little raft" for one or two people on board. The Pucón area offers many places (lakes, rivers, and hot springs) to do water activities for your experience level and desire.

Kayak School

Beginners Course

Learn and practice basic techniques to control the boat and maintain balance. Learn the "Eskimo roll" (roll the boat in the water). This course takes place in Lake Villarrica or in a nearby hot springs (Liucura or Quimeyco) and is open to all who want to learn how to kayak.

Intermediate Course

After an initiation in peaceful water in the Liucura River (class I & II), we float down the river as we learn safety maneuvers in the stream, reading the river, ferry crossings, and how to stop the boat mid stream.

Expert Course

Our expert course gives you the opportunity to ride down a class III river (either the Lower Trancura or Upper Liucura), where you will confirm your competences, learn to ride a static wave, and learn techniques to ride in big water.

Ducky

Check out the Ducky, an inflatable kayak for one or two people, it's a blast! This is often more exciting than rafting because of the small size of the boat. In double boats, it's a great challenge coordinating between the two boaters.

After a brief introduction to basic techniques and safety measures in the water; you will enjoy a 1-hour ride on either the Liucura or Lower Trancura, and then ride a static wave. A professional guide supervises all activity. This is a great activity that is a lot of fun for couples and friends who enjoy adventure!

Details
